Professional Summary

Aspiring Azure Cloud & DevOps Engineer with hands-on internship experience in cloud automation and CI/CD pipelines. Competent in provisioning scalable infrastructure using **Terraform** and managing containerized deployments with **Docker & Kubernetes**. Strong foundation in **Azure DevOps**, version control, and Linux environments, dedicated to enhancing deployment efficiency in an entry-level engineering role.

Technical Skills

Cloud Platform:	Microsoft Azure
CI/CD Tools:	Azure DevOps, GitHub Actions
Infrastructure as Code:	Terraform, Terraform Modules
Containerization:	Docker, Kubernetes
Monitoring:	Prometheus, Grafana, Azure Monitor
Version Control:	Git, GitHub
Scripting:	Bash, Python, YAML
Operating Systems:	Linux (Ubuntu), Windows

Experience

DevOps Insiders

November 2024 – October 2025

DevOps Engineer Intern

Remote, India

- **Automated** Azure infrastructure provisioning using **Terraform**, eliminating manual effort.
- **Designed and maintained** automated **CI/CD workflows** using **Azure DevOps** pipelines.
- **Containerized** applications with **Docker** for consistent deployment across environments.
- **Configured** infrastructure monitoring and real-time alerting using **Prometheus** and **Grafana**.
- **Standardized** infrastructure setups across teams using reusable **Terraform modules**.
- **Troubleshoot and resolved** pipeline failures, deployment bugs, and **Linux** server issues.

Projects

CI/CD Deployment Automation Pipeline | Azure, Terraform, Docker, Linux, NGINX [GitHub]

- **Designed and built** robust **CI/CD pipelines** using **Azure DevOps** for automated application workflows.
- **Automated Azure infrastructure** provisioning with **Terraform**, successfully **reducing manual efforts by 70%**.
- **Containerized** applications using **Docker** and deployed them on **Linux** servers with **NGINX**.
- **Integrated** GitHub repositories with **Azure DevOps** for seamless continuous integration.

Multi-Environment Azure Infrastructure Setup | Terraform, Azure, Azure DevOps, Azure Storage [GitHub]

- **Developed** reusable **Terraform modules** to standardize Dev, Staging, and Production environments.
- **Configured Azure Storage** backend with secure state-locking for collaborative **Terraform state management**.
- **Automated** infrastructure validation and deployment workflows using **Azure Pipelines**.
- **Optimized** environment-specific configurations to enhance cloud infrastructure reliability.

Azure AKS Provisioning & Deployment | Terraform, Azure AKS, Kubernetes, YAML, Git [GitHub]

- **Provisioned an Azure AKS cluster** using Terraform to practice foundational Infrastructure as Code workflows.
- **Developed basic YAML manifests** to efficiently deploy and configure Kubernetes Pods and Deployments.
- **Gained practical exposure** to core Kubernetes concepts like container orchestration and pod lifecycles.
- **Leveraged Git** for version control to manage and track Terraform scripts and Kubernetes configuration files.

Education

Dr. A.P.J Abdul Kalam Technical University

September 2022 – April 2026

B.Tech in Computer Science and Engineering | CGPA: 8.4 / 10

Lucknow, Uttar Pradesh, India

Jawahar Navodaya Vidyalaya, Balrampur (CBSE)

April 2019 – May 2021

Intermediate (PCM): 84.4% | High School: 84.6%

Uttar Pradesh, India
